

Utah County Democrat

PROVO - - - UTAH

NORTHWEST NOTES

R. B. Smith, former governor of Montana, is dead at Kallispell, death being due to uraemic poisoning.

Amos Steek, one of the oldest of Colorado pioneers, died at his home in Denver on November 17, aged 86.

Mrs. M. S. Williams, the first white woman in Butte, lately in reduced circumstances, was last week committed to the insane asylum at Warm Springs.

The Union Pacific telephone line from Rawlins to Ogden has been completed, and is now in service. It will greatly facilitate the sending of railroad messages.

The president has appointed George E. Russell postmaster at Seattle, Wash., vice George M. Stewart, removed for alleged violation of the civil service laws.

Headquarters of the reclamation service, northern district, comprising the states of Wyoming, North Dakota and Montana, were opened in Helena last week.

The Jewel saloon, in the tenderloin district of Butte, was dynamited by unknown persons on November 17, and badly wrecked. Several of the inmates had narrow escapes.

Elizabeth Turner, 7 years old, died at Helena, Mont., last week from injuries received while coasting. This is the first fatality from coasting reported in the state this year.

In a freight train wreck near Winnemucca, Nev., L. A. Groves, a brakeman, was injured, and sixteen cars of oil, machinery and dressed poultry were jammed into a tangled mess.

Otto Siegel, a pioneer and well known business man throughout Montana, died at Missoula last week of apoplexy. His demise was hastened by a fall down stairs several days previous.

The proposed wedding of Joe Turich and Nila Marinovich was interrupted at Butte by an officer, who arrested the intended-to-be bridegroom on a charge of bigamy. He is alleged to have a wife and two children in Austria.

The Pacific coast, it is understood, will make a strong effort to secure representation in President Taft's cabinet. R. A. Ballinger of Seattle, former commissioner of the general land office, is to be urged for secretary of the interior.

Owing to the probable defeat of the constitutional amendment providing for an increased tax at the recent election in Montana, it is very probable that there will not be sufficient revenue next year to pay the expenses of the state.

Nevada bankers have been called to meet at Reno, December 3, next, through the action of the Reno Bankers' committee to perfect a state or national bank, formulate plans for remedial banking legislation and secure uniformity in practice.

James Allen, a structural iron worker, met a tragic death while working on a trestle which spans a deep ravine near Taft, Mont. Allen was riding a steel column which was being swung into place when he was knocked from his position and fell to the ground below, a distance of 100 feet.

The authorities of Billings, Mont., have made public a mail pouch robbery, which occurred in that city recently. The thieves were apparently novices, as the pouch they selected contained no money, according to the postal authorities. The rifled pouch was found under a building near the depot.

After prosecuting a search for her child for thirteen years, finding the boy in Bellingham, Wash., last June, the adopted son of S. A. W. Dornig, Miss Maude Fields of St. Louis failed to secure possession of the child, the judge of the superior court giving the boy into the charge of his adopted parents.

Confident that they will be granted a franchise by the state legislature to conduct horse racing in Nevada, California racing promoters and Reno capitalists have taken an option on ground at Moana Springs, a resort four miles south of Reno, sufficiently large to establish a suitable track and buildings.

Mike Butler, a member of the Butte fire department, has been arrested, charged with dynamiting the Jewel saloon, in the red-light district of Butte. The proprietor of the place says Butler declared, when pressed for payment of a bar bill, that he "would get even."

John Beau, who escaped from the insane asylum in Wyoming several months ago, astonished the officials at the asylum by turning up and demanding readmission. Beau explained that careful study of his condition had convinced him he was still mentally unsound.

The Southern Pacific has established a nine-hour day at its railroad shops in Sparks, Nev., after operating for years on an eight-hour basis. The move was made necessary by the increased business over the company's lines, which puts extra work in the shops.

Work on the Flower Lake tunnel, on the line of the Western Pacific railroad in Nevada, has been entirely completed by the construction company, which has had the contract. As soon as the preliminary clearing up is completed, work will begin on laying the tracks through the tunnel.

It develops it was a former citizen of Oregon who shot and killed the clerk of the supreme civil tribunal, as well as wounding the presiding judge at Leipzig, Germany. The man is Wilhelm Grosser, who lived at Williams, and who had been defeated in a contest over a seat in that court.

Three young men of Lewiston, Mont., who went on a hunting trip early last month, have failed to return, and it is feared they have perished in the wild country they had traversed. A searching party, well equipped with provisions, has been sent out to search for the hunters.

MINE ACCIDENT REVEALS THRILL OF SUPERSTITION

FINNISH MINERS REFUSE TO GO BACK TO
WORK UNTIL BODIES OF FORMER
COMRADES ARE REMOVED.

Butte, Mont.—Until the bodies of the six Finnish miners, who lost their lives in the fire in the East Side coal mine of the Northwestern Improvement company at Red Lodge last Friday, have been removed, the Finlanders, who comprise 50 per cent of the working force at the Northwest mine, refuse to resume work, declaring they would not be showing the proper amount of respect to the dead were they to begin work now. The superstitious fears of the foreigners are believed to be at the bottom of their refusal to resume work.

As there is slight chance of the bodies ever being recovered, it being the belief of the mine owners that the remains of the six have long since been entirely consumed, the company is in a sort of a quandary.

Should the Finns refuse to reconsider their announced determination, it will likely lead to complications affecting the two years' wage agreement between the mine operators and the miners.

HOBSON FEARS TROUBLE.

WANTS ORDER RESCINDING RECALLING
FLEET FROM PACIFIC WATERS.

Akron, Ohio.—Congressman Richard P. Hobson, who was here on Monday, has sent a letter to President Roosevelt, demanding that he rescind his order recalling the United States fleet from the Pacific. In his letter he stated President Roosevelt for his interference in the Japanese troubles in California, saying:

"Our presidents have invariably refused to interfere in local matters, even when foreign subjects were being assassinated, but in this case, Mr. President, you did interfere where foreign subjects were not being harmed. If you were justified then in calling on the people of San Francisco to surrender, you are not justified in now withdrawing the fleet and again placing them and their neighbors on the whole coast in precisely the same defenseless position."

"It would be a national and international calamity to withdraw the fleet."

SOUNDS WARNING NOTE.

English Field Marshal Points Out
Danger That Threatens Nation.

London.—Speaking in the house of lords Monday night, Field Marshal Lord Roberts expressed the conviction that the lack of a military force sufficient to make hopeless the attempt of an invasion would in all probability be the cause of the loss of Great Britain's supremacy at sea.

In a studied speech he pointed out the comparative ease with which Germany could land an army on the shores of England. Under present conditions England would be forced, he said, to submit to most humiliating demands.

He disclaimed all hostility to or fear of Germany, but he declared that the defense of the islands required immediate attention. There should be an army so strong in numbers and efficient in quality that the most formidable of foreign nations would hesitate to make a landing in England.

GOMPERS AGAIN CHOSEN.

Veteran Labor Leader Remains at
Head of American Federation
of Labor.

Denver.—At the election of officers of the American Federation of Labor, held here on Saturday, Samuel Gompers was again chosen president. With the exception of Daniel J. Keefe, all of the officers were re-elected. Keefe refused to run, because he stood for the principle that the American Federation of Labor could not dictate what church or what politics an officer should support. Keefe could have been elected without any doubt. The big men in the convention refused to make a martyr out of him.

Mr. Gompers was re-elected to the office he has held since the organization of the federation in 1881, with the exception of one year, amid scenes of greatest enthusiasm, only one representative of the Socialist party voting against him.

Roasts Merry Widow Hat.

New York.—"Any lady who decorates herself in a way to shut off the view of those sitting behind her commits a theft—a theft which Christian consideration ought to render impossible in the sanctuary." The wags of protest the "Merry Widow" and other large-headed women's headgear has reached the Madison Avenue Presbyterian church; the Rev. Dr. Charles H. Parkhurst so declared himself on Sunday in a short prelude to the regular morning sermon.

Faithful to Convicted Husband.

Philadelphia.—Charles G. Magnus, husband of a daughter of the late United States Senator Gorman of Maryland, recently convicted of desertion from the United States navy, left the Philadelphia navy yard on Monday for Portsmouth, N. H., where he will serve a year in the government prison. Magnus was met by his wife, who accompanied him to Portsmouth. Mrs. Magnus will reside in Portsmouth until he is released from the prison.

Evelyn and Harry Said to Be Reconciled Again.

Finchville, N. Y.—A visit which Mrs. Evelyn Nesbit Thaw paid her husband at the Matteawan hospital for the criminal insane gives rise to the belief, widely expressed here, that a reconciliation has been effected between the couple. Indications are not wanting either that Mrs. William Thaw, Harry K. Thaw's mother, is a party to the understanding, if one has been reached. Mrs. Evelyn Thaw remained with her husband an hour and a quarter.

LAMP HERE FOUND GUILTY OF ARSON

Man Accused of Murder of Mrs.
Belle Guinness and Children Gets
a Compromise Verdict.

Has Been Sentenced to State Prison
for Indeterminate Term of From
Five to Twenty Years and
Fined \$5,000.

Laporte, Ind.—Ray Lamphere, charged with the murder of Mrs. Belle Guinness and her three children by setting fire to the Guinness home April 28, was on Thursday evening found guilty of arson by the jury, which had the case since 5:30 o'clock Wednesday evening. Within five minutes after the verdict was reported Judge Richter had sentenced the defendant to the state prison at Michigan City for an indeterminate term of from two to twenty-one years, fined him \$5,000, and disfranchised him for five years.

Attorney Worden, for the defense, said Thursday night that a motion for a new trial would be made, and, should it be refused, an appeal to the Indiana supreme court would follow.

Should the case be carried to the supreme court and sent back for retrial, Lamphere could not be tried on any charge in this particular case excepting arson, the crime of which he was convicted. However, in an event of that kind the state would elect to try him on one of the indictments, probably the Helgelein case.

Members of the jury are reticent in discussing what occurred in the jury room, but enough has been learned to know that but for two members Lamphere would have been found guilty of murder or manslaughter, the verdict being a compromise. Several members of the jury, it is understood, held out long for murder in the first degree, with a life sentence. So far as could be learned, none was for hanging.

ANARCHY REIGNS IN HAYTI.

Wholesale Executions in Progress on
Both Sides.

New Orleans.—According to a cable dispatch received by the Playcoun from St. Thomas, D. W. L., private cable advices received there from Fort au Prince are to the effect that the censored dispatches sent from Hayti only give a faint idea of the reign of terror now existing on that island.

The dispatch continues: "Anarchy reigns throughout Hayti and the country is literally running with blood. Private cables received here from Fort au Prince state that wholesale executions are in progress, both by the government forces and the revolutionists. Persons who are suspected of sympathy with the insurgents are being summarily shot, by order of President Nord Alexis. The same course is being followed by the revolutionists, who have control of the southern portion of the republic."

CASTRO BOUND FOR EUROPE.

President of Venezuela Will Undergo
a Surgical Operation.

Port of Spain, Trinidad.—President Castro of Venezuela arrived here on Thursday on his way to Europe, to secure expert medical attention. President Castro is accompanied by his wife, several members of his immediate family, and three Venezuelan physicians.

A number of launches circled around the Guadeloupe as near as the quarantine guard would permit.

Three Men Alleged to Have Plotted Against Dowager Empress.

St. Petersburg.—Telegrams received in this city on Thursday give an account of the discovery of an alleged plot upon the life of the dowager empress of Russia during her recent visit from Copenhagen to this city. Shortly before the train on which her majesty passed Ponderoy, three men were noticed acting suspiciously. They were approached by gendarmes and opened fire with revolvers. Two got away, but one man was arrested. This incident is the basis of sensational reports.

Youth Kills Stepfather.

Healdsburg, Cal.—Fred Ingelman, a 13-year-old lad, shot and killed his stepfather, John Day, who was engaged in brutally beating his wife. Day is said to have been drinking and returned home in an ugly mood. He greeted his wife by violently assaulting her. It is said, and when young Ingelman protested he was thrown to the floor and choked. The boy had previously armed himself and during the struggle with his stepfather he succeeded in getting a pistol out of his pocket and shot Day through the temple.

Steamer Sunk in Collision.

New York.—In the thick of a fog off Sandy Hook on Thursday the steel freighter George of the White Star line, rammed and sunk the lightly-laden Panama line steamer Finance, outwardbound with eighty-five passengers. The Finance went down within ten minutes, carrying to their death three of the passengers and one of the crew. The rest of the passengers, who included nineteen women and fourteen children, as well as others of the crew, were rescued by the boats of the George. The freighter was not damaged.

Students Make Vigorous Demonstrations Against Austria.

Rome.—The demonstration here against Austria arising from the attack in Vienna a few days ago upon a number of Italian students studying at the University of Trieste, have not yet ceased and the authorities still maintain a cordon of troops around the Austro-Hungarian embassy. The continuance of these disturbances has made necessary the postponement until next Monday of the meeting of the international institute of agriculture originally set for Thursday.

SCORES OF ARAB PILGRIMS LOSE THEIR LIVES AT SEA

British Steamer Burns While Within
Sight of Land and a Hundred
Lives Are Lost.

Valetta, Island of Malta.—A terrible disaster, in which more than a hundred persons lost their lives, occurred at the entrance to this port Wednesday morning, within sight of the whole city, which was powerless to give aid. The British steamer Sardinia, of the Ellerman line, sailing from Liverpool and bound for Alexandria, with a crew of forty-four Englishmen, eleven first and six second cabin English passengers and nearly 200 Arab pilgrims aboard, caught fire, and within a few minutes was a roaring furnace, surrounded by clouds of smoke, through which flames burst upward to a height of 200 feet from explosions in the hold. So rapidly did the fire spread that the frantic efforts of the crew to operate the fire apparatus proved useless, and it seemed but a moment before the upper works and masts crashed down upon the deck, while the ship's boats were crushed by the falling debris or quickly burned.

Safety lay only in jumping overboard and taking chances of being picked up. Assistance was hurried to the burning vessel from all the warships in the harbor and from the shore, but the work of rescue was greatly impeded by the strong tide that was running.

While it will probably never be known just how many lives were lost, it is believed the list will be over one hundred. Fifty bodies of Arabs have already been recovered.

SHOT DOWN BY GUARDS.

Rioting of New Jersey Factory Workers
Result in Bloodshed.

Perth Amboy, N. J.—Following a pitched battle between seventy strikers and twelve deputies on Wednesday at the factory of the National Fireproofing company at Keasbey, near here, in which six of the strikers were shot down, Governor J. Franklin Ford dispatched four companies of the state national guard at Trenton to the scene, and the streets are now patrolled by 250 soldiers.

A feeling of intense excitement prevails, as the strikers declare the deputy sheriffs were not justified in firing upon them. Two of the wounded men are dying in the hospital, and four others are painfully hurt.

For two days there had been rioting at Keasbey and a number of towns along the Raritan river. Two weeks ago the men employed by the Raritan River Clay company went on strike for higher wages. They marched to the plant of the Perth Amboy Fire Brick company and induced the men there to go out. On each succeeding day the men increased in numbers and marched to towns to induce employees to leave their work. The strikers, nearly all of whom were foreigners, say that they were given to understand before election that if Taft were elected their pay would be restored to \$1.50 a day. It now is \$1.30. The officials of the factories deny that such a promise was made.

SERIOUS UPRISING PROBABLE.

Attacks Made Daily on Lives of Englishmen by Indians.

Calcutta.—The situation in India has not shown such a menace of serious uprising as it does today, for many years. Attacks and attempts on the lives of Englishmen are of almost daily occurrence.

The police are taking remarkable precautions to protect Lord Minto, the viceroy of India.

Lord Minto returned here Wednesday from the north, cutting short his excursion in this territory for the purpose of considering measures to cope with the native dissatisfaction. Wednesday night a Bengali made an unsuccessful attempt to kill Public Prosecutor Hume with a bomb in a railroad carriage near Agartala. There were three other Europeans in the carriage at the time. A bomb loaded with dynamite was thrown at the carriage by the native, but it fell short and exploded outside. None of the Europeans was injured. The Bengalis are landing the man who made this attempt.

Last Monday night District Superintendent of Police Clough was murdered by a native at Lyatpur.

Manila Entertains Jack Tars.

Manila.—There was general rejoicing in Manila on Wednesday when 1,500 men from the Atlantic battleship fleet were permitted to land and came ashore for the first time since the arrival of the fleet. Reception committees greeted the sailors at Cavite, school children sang at the landings, and artillery boomed forth salutes as the men stepped ashore. The city was beautifully illuminated at night, immense crowds thronged the streets and a program of sports and amusements was provided for the sailors.

Contract Labor Laws Violated.

Washington.—A sweeping report of violations of the contract labor law has been ordered by the department of commerce and labor. Fifty-three persons, either contract laborers or dependents, who came to this country under an alleged unlawful arrangement with the Firth Carpet company, located at Firth Cliffe, N. Y., have been ordered to be returned to their homes in England and Scotland. The cases of many others are now under consideration, but no final disposition has been made of them.

Fatal Foot and Mouth Disease.

Detroit.—An inspection of cattle in Livonia township, this county, on Wednesday brought to light eighty-six additional cases of foot and mouth disease, which, with nearly two hundred reported Tuesday, brings the total well up toward 500. Illinois declared a quarantine against Michigan cattle Wednesday, and Secretary of Agriculture Wilson and A. D. Melvin of the federal bureau of animal industry sent telegrams to the state veterinarians of Indiana and Ohio advising them to keep a strict lookout.

TERRIBLE TORNADO SWEEPS ARKANSAS

Half a Dozen Towns Almost Completely Destroyed and Score of
Lives Wiped Out.

Path of Storm Said to Have Been
Two Miles Wide and Seventy
Miles Long—Heavy Property
Loss, as Well as Long
Death List.

Little Rock, Ark.—More than a score of lives were lost and many other persons were injured in a tornado which swept the northwestern section of this state Monday, demolishing several towns and razing vast tracts of timber.

The tornado, approaching from the southwest, crossed the Arkansas river several miles south of the settlement of Piney and proceeded in a northeasterly direction. It swept through the towns of London, Wellsville, Jeshro, Louisville, Patterson and Berryville and outlying portions of Mulberry, either completely wrecking or laying waste the larger part of these places and destroying timber and crops throughout the intermediate country.

At Piney it is said that twelve persons were killed and a number injured. Practically the entire settlement was demolished.

At London three lost their lives. Wellsville and Jeshro were practically destroyed, several fatalities occurring in each place.

In the vicinity of Mulberry the death list is placed at seven. At Berryville, one woman, Mrs. J. O. Hoskins, was seriously injured and several other persons sustained lesser injuries. A path 100 yards wide was cut through the town, six buildings being completely wrecked and a number of others damaged, either being torn from their foundations or unroofed. Here the property loss is estimated at about \$25,000.

From the outlying districts considerable damage to property is also reported, but no loss of life.

At Lodi three buildings were destroyed and one woman was seriously hurt.

Advices from Louisville, from the western part of Lafayette county, report the destruction of several buildings at that place, and at Palmers considerable damage to property, as well as injury to a number of persons, is reported.

The tornado swept through a section of country two miles wide and seventy miles long. The force of the storm was greatest in the vicinity of Ozark, Ark., the small town of Cravens, four miles west, being completely wiped out. Four persons were killed and three fatally injured.

Mr. and Mrs. Hill, an aged couple, who were caught in the collapse of their house and crushed.

A grocery store in which several people had taken refuge was blown to pieces and all the occupants were more or less injured. Dr. Croker, of Lenail, Ark., was slightly hurt.

DIFFERENCE OF OPINION.

Presbyterian Ministers Oppose View
of President Roosevelt.

New York.—In a resolution adopted on Monday the Presbyterian ministers' association of this city expressed disagreement with President Roosevelt's statement in a recent letter that refusal to vote for a candidate for high office because he is a Roman Catholic is "narrow, unwarranted bigotry." The ministers indorsed the letter sent recently by the New York Lutheran ministers to the president, dissenting from his view of the matter.

Republicans Spent Million and a Half.

Albany, N. Y.—George B. Shelton, treasurer of the Republican national committee, has filed the list of contributions for the recent national campaign. It shows 12,333 contributors, many of them covering a number of lesser contributions. The total amount contributed was \$1,655,518.27. Among the big individual contributors were C. D. Taft, Cincinnati, \$110,000; United League, New York, \$37,777; Union League, Philadelphia, \$25,500; Andrew Carnegie and J. P. Morgan each gave \$20,000. Whitelaw Reid contributed \$10,000.

Made Target of Mining Man.

Butte, Mont.—Col. M. H. De Hora, president of the British-Butte Mining company, has informed the authorities that four attempts had been made on his life during the month, the last occurring Saturday night. On each occasion De Hora was on his way to the properties of the company near Rocker, to pay off the hands, and had large sums of money with him. On each occasion the would-be assassin fired with a rifle from the dumps of the old Bluebird smelter, half a mile across the valley.

Independent Wireless Problem Solved.

Paris.—Bellini and Tosi, two Italian scientists, who, with the sanction of the French government, have been conducting experiments in wireless telegraphy for the past eighteen months on the coast of Normandy, announce that they have solved the problem of independent wireless communication. This result, they say, has been secured by means of two rectangular aerials fixed at right angles, and so attached to the apparatus as to permit the transmission of unequal currents.

Banker Charged With Appropriating \$50,000.

New York.—John G. Jenkins, Jr., formerly president of the Jenkins Trust company of Brooklyn, which failed during the financial panic of 1907, was placed on trial in Brooklyn on Monday, charged with the larceny of \$50,000, by misappropriating \$50,000 of the trust company funds by transferring same to the stock brokerage firm of which he was a member. Jenkins is a member of a family of bankers who were well and widely known before the financial crash of last year.

SHAH CHANGES HIS MIND; PEOPLE MAY CHANGE RULERS

Refusal to Grant People of Persia a
Constitution May Result in Retirement of Sovereign.

Teheran.—The shah already has repented of his proclamation, posted in the mosques on Monday, in which it was set forth that the people, in spite of his promises, shall not have a constitution, and during the night he sent out urgent orders to withdraw this proclamation from circulation and to destroy all copies of it.

This sudden change of front on the part of the shah is attributed here to the vigorous representations that undoubtedly have been made by the British and Russian legations. These powers, it is said, have notified the shah that he will be held personally responsible if his refusal to give his people a constitution results in anarchy.

The impression is gaining ground in non-official circles that the people of Persia may cut the Gordian knot by effecting a change of sovereigns. There is no hope for improvement on the part of the present official on the throne.

CUMMINS WINS TOGA.

Governor of Iowa Succeeds William
B. Allison in Senate.

Des Moines, Ia.—Governor A. B. Cummins at noon on Tuesday was elected by the Iowa legislature United States senator to succeed the late William B. Allison. The vote stood: Cummins, 104; Porter (Dem.), 35. Three Republicans did not vote. Cummins' reelection to the six-year term next January is unquestioned.

Lieutenant Governor Garst was inaugurated as governor of Iowa at a joint session of the house and senate Tuesday afternoon.

When Senator Cummins walked to the speaker's stand, preceded by his aged father, pandemonium broke loose. The cheering continued five minutes.

Senator Cummins, in a brief speech, thanked both the Republican and Democratic members of the legislature for the support they had given him during the seven years of his administration as Iowa's governor. He declared that in so far as he was concerned, bitter factionalism in Iowa is at an end.

TROUBLE IN TENNESSEE.

Murderers of Deputy Sheriff Lynched
by Frenzied Mob.

Union City, Tenn.—The little town of Tiptonville, bordering on Reelfoot lake, which has been the scene of many stirring incidents the past month, witnessed the lynching late Tuesday afternoon of three negroes, who were arrested that morning for murdering Special Deputy Sheriff Richard Burruss and fatally wounding John Hall, a deputy sheriff. The negroes were Marshall Steinback, Edward Steinback and Jim Steinback.

These brothers created a disturbance at a religious meeting near Tiptonville Saturday night, and when the officers attempted to arrest them a fight ensued, in which the negroes shot the officers and made their escape. After being captured and lodged in jail, a mob formed and, despite cooler heads, and after the negroes had been hurriedly tried and sentenced to death by the authorities, the mob took the negroes from the jail and hanged them.

ROCKEFELLER OWNS RAILROADS

Invests Profits Derived from Oil in
Railway Bonds.

New York.—Closing his testimony on Tuesday in the federal suit to dissolve the Standard Oil company, John D. Rockefeller threw some unexpected light on the popular question into what channels of investment flowed his tremendous earnings from the oil combination. Mr. Rockefeller was loath to state the names of the railroads in which his investments were made, but did so after entering his objection. The head of the so-called oil trust declared that his holdings in railroads consisted chiefly in bonds, and that with the exception of a few roads in which he held only small amounts of stocks, he preferred the bonds as a form of investment.

The Old Consolidated to be Succeeded by New Steamship Company.

Boston.—The incorporation at Portland, Maine, on Tuesday of a new \$40,000,000 corporation to be known as the Atlantic Gulf & West Indies Steamship line, with Henry R. Malory of New York as president, and with substantial backing by Boston bankers, was in line with a plan formulated by interested parties to save from complete wreck the Consolidated Steamship company, promoted by Charles W. Morse of New York. The lines to be taken over by the new corporation are those operating from New York southward.

Haytian Revolution Spreading.

Port au Prince, Hayti.—The revolutionary movement against President Nord Alexis is spreading. The towns of Aquin and Jeremi have both declared against the government. The garrison of Jeremi, which has fallen to the hands of the rebels, encountered the garrison of Centauros, off Jeremi, and shots were exchanged. General Lecomte, the minister of the interior, who went out at the head of a government force against the rebels, has been taken prisoner. The rumor is current here that he has been executed.

Burial Place of Giants.

East St. Louis, Ill.—Human bones, believed to have been those of sixteen mound builders, were found in East St. Louis on Tuesday. The men who were digging an excavation. One skeleton was walked up in a stone tomb eight feet high. It was that of a man apparently seven feet tall. When the stones were removed the skeleton fell to pieces. Buried under seven feet of earth near the skeletons of fifteen men, all above normal height. They were seated in a circle about the tomb.

OUR BUSINESS GUIDE.

Directory for those wishing the addresses of any of the following business men of Provo.

C. F. Decker & Co.,
Fruit and Produce.

J. Beck,
Watches and Jewelry.

John T. Taylor,
Groceries and Provisions.

Watkins & Berch,
Architects.
